## THE BASICS

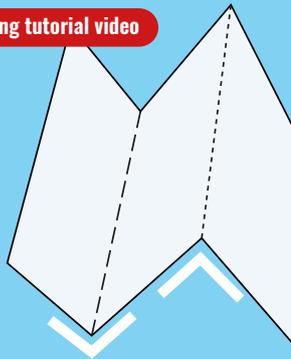

### GENTLY DETACH THE PRE-CUT PIECES

### FOLD

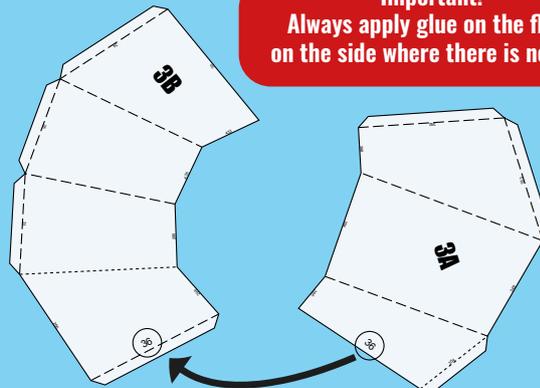

- VALLEY FOLD / PLIAGE EN VALLÉE
- MOUNTAIN FOLD / PLIAGE EN MONTAGNE

Watch folding tutorial video

### FIND MATCHING POINTS AND GLUE TOGETHER

**Important!**  
Always apply glue on the flaps on the side where there is no text

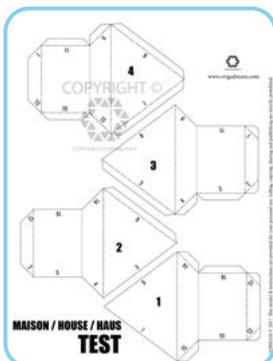

## TEST SAMPLE

Before to start the sculpture try the little House TEST. We recommend it for people who have never done a papercraft. This will allow you to practice and avoid some sticking mistakes. Find inside the kit the House Test sheet.

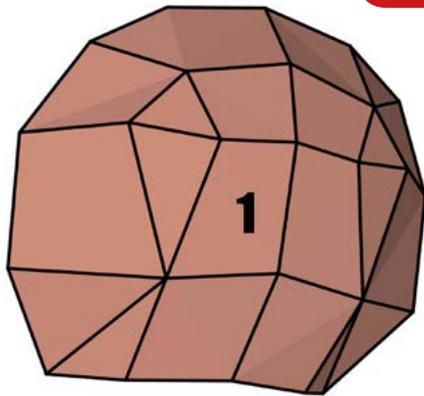

Detach and manipulate gently the different parts.

We recommend to start with this method:

- 1/ Apply all folds
- 2/ Assemble Numbers in order (1, 2, 3, and 4) by using a glue (white wood glue type). Press firmly on the assembly area for a few seconds so that the glue has set firmly on the paper.
