

AMUND THE PENGUIN INSTRUCTIONS

THE BASICS

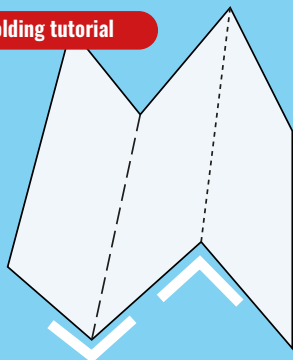

GENTLY DETACH THE PRE-CUT PIECES

FOLD

----- VALLEY FOLD / PLIAGE EN VALLÉE
 ----- MOUNTAIN FOLD / PLIAGE EN MONTAGNE

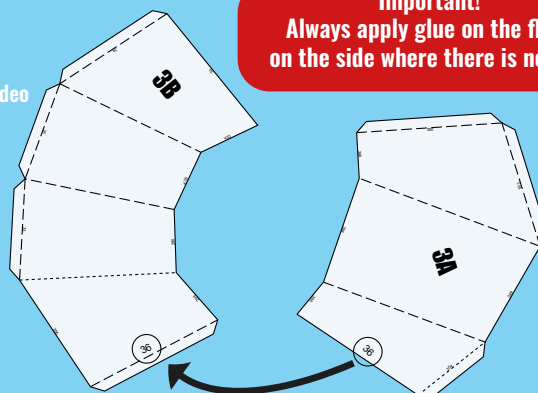

Watch folding tutorial

FIND MATCHING POINTS AND GLUE TOGETHER

Important!
 Always apply glue on the flaps
 on the side where there is no text

video

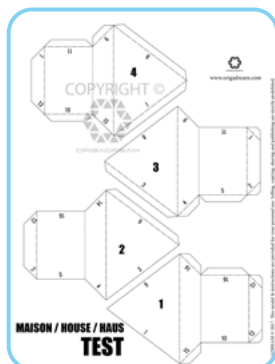

TEST SAMPLE

Before to start the sculpture try the little House TEST. We recommend it for people who have never done a papercraft. This will allow you to practice and avoid some sticking mistakes. Find inside the kit the House Test sheet.

Detach and manipulate gently the different parts.

We recommend to start with this method:

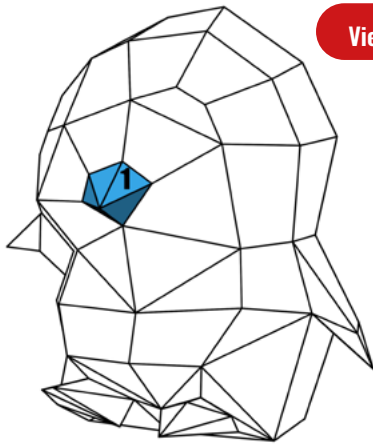

- 1/ Apply all folds
- 2/ Assemble Numbers in order (1, 2, 3, and 4) by using a glue (white wood glue type). Press firmly on the assembly area for a few seconds so that the glue has set firmly on the paper.
